Design: Figma, Wireframing, User Research, Usability Testing, Adobe XD, Adobe Photoshop

Programming: C++, JavaScript, HTML, SQL

Tools/Software: WordPress, MySQL database, GitHub, Azure DevOps, Jira, ArcGIS, Microsoft Office

Professional Experience

1898 & Co. | Part of Burns & McDonnell

UI/UX Designer   Jun 2023 – present | Kansas City, MO
- Create high-fidelity, interactive prototypes in Figma and establish a standardized Design Component Library
- Design custom icons and graphics in Figma and Adobe Photoshop
- Conduct QA/QC Testing of Project Management and Mapping Applications and provide constructive feedback to developers
- Build and maintain a project-tracking dashboard in ArcGIS Experience Builder for the internal GIS Team

Computer Science Intern   May 2021 – Aug 2021 | Kansas City, MO
- Designed and presented interactive project report page for client using Adobe XD
- Identified and verified client business requirements for project and collaborated with developers to fix bugs

Dell   Jun 2020 – Jul 2020 | Overland Park, KS
RSA Software Engineering Intern
- Contributed to team's RCA (Regulatory Content Analysis) Application by updating a message box to specifically reference projects being deleted, archived, or unarchived instead of a general message to user
- Created UI Build and Test Stages for Gitlab CI that would build the UI Code, run UI Validation, and run UI Tests for team's Content Parser Application
- Updated and reviewed git hooks file to comply with CI pipeline changes

DEG   Jun 2019 – Aug 2019 | Overland Park, KS
Engineering Intern
- Added tests and functionality to accordion, tabs, and toggletip components in UI Component Library
- Solved security vulnerabilities in GitHub repositories

Education

Bachelor of Science in Computer Science   Aug 2018 – May 2022 | Lawrence, KS
University of Kansas
  Minors in Business and Psychology
